

Gawsworth 2 Series High Bay Instructions

**Caution, risk of
electric shock.**

IMPORTANT INSTALLATION INFORMATION This product must be installed in accordance with the latest edition of Building Regulations and carried out by a qualified electrician in accordance with the latest IEE Wiring Regulations. Before commencing any installation or maintenance work, ensure that the mains supply is switched off and the appropriate MCB or fuse is isolated.

MAINS WIRING Cable colours are shown opposite.

The Gawsworth 2 high bay is available in 100 watt, 150 watt and 200 watt versions. All versions have a 1-10v driver capable of being controlled by a microwave sensor (MC054V) incorporating day light harvesting, dimming and presence sensing. A further pair of wires control the 1-10v operation. Blue is positive +, white negative -. These wires should be isolated and made safe if unused.
